

# Putting an Icon on Your Android Homescreen

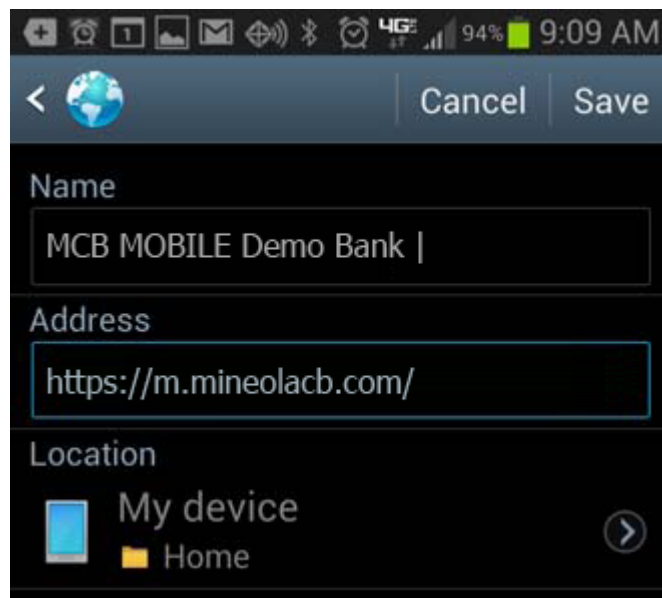

1. In your browser, go to Mobile Web

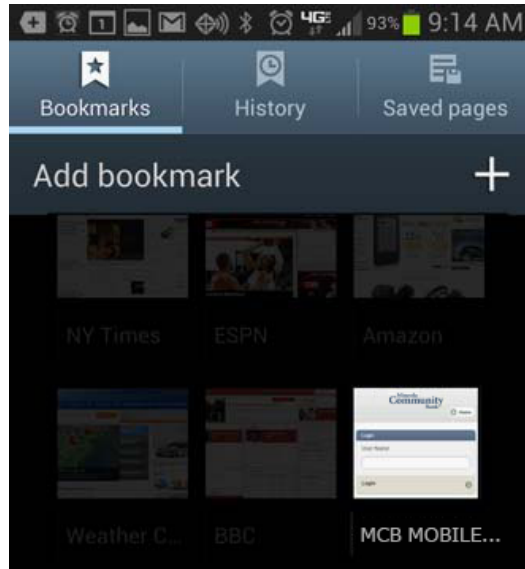

2. Press the Menu button and select "Add Bookmark".

You can customize the name of the bookmark. Tap "Save" to save the bookmark to the device's bookmarks location.

3. Tap Bookmarks  to open the bookmarks library. Scroll through the bookmarks until you find your Mobile Web bookmark.

4. Press and hold your Mobile Web bookmark and choose "Add shortcut to Home." A 1-touch icon for Mobile web is added to your homescreen.
